

PointClickCare now offers optional MxManage interface to identify reimbursement opportunities.

Mississauga, Ontario, July 5, 2007 – Wescom Solutions Inc., developers of PointClickCare, has completed the successful interface of MxManage's industry-proven suite of tools. Through a seamless one button interface, this optional feature is designed to retrieve, organize and display MDS Information to maximize your management effectiveness.

Mike Wessinger, President and CEO, is pleased with the successful integration of the PointClickCare on-demand software application with the MxManage application. Mr. Wessinger stated, "This capability not only provides our clients with streamlined options to better identify reimbursement opportunities and improve performance, but further solidifies our existing relationship with Plante & Moran. Mr. Wessinger added, "Our 'no hassle' value proposition has always remained focused on delivering our clients with the best partnership resources available to the Long-Term Care (LTC) market and MxManage is a perfect fit.

About Wescom /PointClickCare:

Wescom is the creator of the leading on-demand electronic medical records, billing and financial and marketing software to the Long-Term Care (LTC) industry. PointClickCare has been online serving providers of all sizes since 2000 and is used by over 2,500 Long-Term Care centers in Canada and the United States. Wescom has headquarters in Mississauga, Ontario.

About MxMANAGE:

MxManage (pronounced max-manage) was developed by the Plante & Moran Clinical Group and is an extremely cost effective web-based MDS analytical tool providing both quality and financial reports that allows you to maximize management's effectiveness. MxManage Quality Stat analyzes and drills down to resident specific information and analyzes the facility's systems – tracking their performance immediately and over time. Financial Stat provides immediate feedback on Medicare utilization, MDS accuracy, and effectiveness of therapy utilization and restorative programming. The new feature, Quick Check, identifies therapy or ADL reimbursement opportunities prior to submitting an assessment.
